HIGH QUALITY FARM SEEDS

At Reasonable Prices

Indications are that field seed prices are lower now than they will be as the season advances. Why not order your seed requirements now while stocks are complete and prices reasonable. We have never had as high quality farm seeds as we now have and we could not go in the open market and buy equal quality today, owing to the extreme shortage of supplies available for planting. Let us have your orders now. If you are not satisfied with the seed we send you, return it within 10 days and we will refund your money.

NOTICE—Prices in the Twenty Pound and Peck column are postpaid. In larger quantities than 20 lbs., the price is 1.00. Coffeyville, buyer to pay freight, express or other transportation charges.
